FIRST ANNOUNCEMENT

International Master’s Degree Course on Male Reproduction
University of Padova, Italy  Academic year 2006-2007
Director: Carlo Foresta     Secretary: Alberto Ferlin

Partner centres:
University of Trieste, Italy
University of Ljubljana, Slovenia
University of Heidelberg, Germany
University of Innsbruck, Austria
Hospital of Brunico, Italy

The International Master on Male Reproduction is sponsored by the Italian Ministry of University in collaboration with the partner Universities. It is a one year degree course offered in a long-life learning perspective that involves 12 European students already specialists in Endocrinology, Urology or Gynaecology. The program includes lessons, conferences, practical activities and stages related to basic and clinical aspects of male reproduction, to be held in the different European Centres members of the Master during 12 months. The Master has 60 credits. Each participant will receive a joint degree from the five partner universities.
